

INSTITUTE OF BIOLOGICAL SCIENCES, UMCS

has the great honor to invite for

EMBO LABORATORY LEADERSHIP COURSE

which is designed to support excellence in science and is brought with support from

EUROPEAN MOLECULAR BIOLOGY ORGANIZATION

Leadership and management skills are critical for a successful career in science. The three-day course will introduce key academic leadership concepts and help participants develop their individual leadership styles. The course also provides insight into how teams work best together and how to identify and resolve barriers to the efficient operation of teams. Throughout the course the trainers provide tools, techniques and insight tailored specifically to the laboratory/research setting for the management of teams, good communication, healthy resolution of conflict and the management of workloads and responsibilities. The principle of this course is "As much theory as necessary and as much practice as possible". Therefore, practical exercises, in the form of role-play and discussion groups, that provide hands-on experience will be an integral aspect of the course.

Course fee:

The course is **free of charge**.

Participant covers cost of accommodation and transportation.

Date:

19-21.03.2024

Venue:

ECOTECH-COMPLEX, Lublin, Poland

Language:

English

Eligibility:

To apply for participation in the Course, the applicant must be a senior postdoctorate researcher from Polish scientific institutions representing life sciences and meeting selection criteria.

Further information:

Details on the course are available on embo.umcs.pl

Application:

The online application form for the course is available [here](#). The registration opens on 20.11.2023.
