

Prof. Jan Ligeża – publikacje naukowe

1. *On generalized solutions of linear differential equations of order n* , Prace Naukowe Uniwersytetu Śląskiego w Katowicach, Prace Matematyczne 3 (1973), 101-108.
2. *On generalized solutions of boundary value problem for linear differential equations of order II*, ibidem, 4 (1973), 53-63.
3. *On generalized solutions of some systems of nonlinear differential equations*, ibidem, 5 (1974), 23-51.
4. *On an integral inequality*, ibidem, 7 (1977), 22-27.
5. *On generalized solutions of boundary value problem for nonlinear differential equations of order II*, ibidem, 9 (1979), 20-28.
6. *On generalized solutions of some nonlinear differential equations of order n* , Annal. Polon. Math., 31 (1975), 115-120.
7. *On generalized solutions of periodic linear differential equations of order n* , ibidem, 33 (1977), 209-218.
8. *Cauchy's problem for systems of linear differential equations with distributional coefficients*, Colloq. Math., 33 (1975), 295-305.
9. *On distributional solutions of some systems of nonlinear differential equations*, Časopismo pro pestovani mat., 102 (1977), 30-36.
10. *On distributional solutions of some systems of linear differential equations*, ibidem, 12 (1977), 37-41.
11. *Controllability and minimum energy control of linear systems*, Podstawy sterowania, 6 (1976), 211-217, co-authors: T. Dłotko, J. Klamka.
12. *The products of measures and functions of locally bounded variation*, Generalized functions and operational calculus, Sofia 1979, 20-26, co-author: P. Antosik.
13. *Remarks on generalized solutions of ordinary differential equations*, Functional – differential systems and related topics I, Zielona Góra, 1980, 217-222.
14. *On generalized solutions of linear differential equations of second order*, Functional – differential systems and related topics II, Zielona Góra 1981, 195-201.
15. *Weak solutions of ordinary differential equations*, Prace Naukowe Uniwersytetu Śląskiego w Katowicach, 842 (1986).
16. *On generalized solutions of some differential equations*, Annal. Math. Sil., 3 (15), 1990, 72-81.
17. *The distributional solutions of some systems of linear differential equations*, ibidem, 3 (15) 1990, 82-90.
18. *Applications of the smooth integral in the theory of weak solutions of ordinary differential equations*, Čas. pro pest. mat. 114 (1989), 113-132.
19. *Existence and uniqueness of distributional solutions of ordinary differential equations in the class of regulated functions*, 7th Czech. Conf. on Diff. Equat. and Their Applications, Enlarged abstract (O.D.E.), Praha 1989, 48-50.

20. *Product of measures and regulated functions, Generalized functions and convergence*, World Scien. Publ. Camp., Singapore – New Jersey – London – Hong-Kong 1990, 175-179.
21. *Generalized solutions of ordinary linear differential equations in the Colombeau algebra*, Math. Bohemica, 2 (1993), 123-146.
22. *Generalized solutions of boundary value problems for ordinary linear differential equations of second order in the Colombeau algebra*, Different Aspect of Differentiability, Dissertationes Mathematicae 340 (1995), 183-194.
23. *Periodic solutions of ordinary linear differential equations of second order in the Colombeau algebra*, Integral Transforms and Special Functions, V.4.N.1-2, (1996), 121-140.
24. *Remarks on generalized solutions of some ordinary nonlinear differential equations of second order in the Colombeau algebra*, Ann. Math. Silesianae 10, Katowice, 1996, 87-101.
25. *On some boundary value problems for ordinary linear differential equations of second order in the Colombeau algebra*, Acta Univ. Palacki, Olomouc, Fac. rer. nat., Math. 35 (1996), 103-119.
26. *Generalized periodic solutions of ordinary linear differential equations in the Colombeau algebra*, Annales Math. Silesianae, 11 (1997), 67-87.
27. *Remarks on generalized solutions of ordinary linear differential equations in the Colombeau algebra*, Math. Bohemica, 123 (1998), 301-316.
28. *On systems of linear algebraic equations in the Colombeau algebra*, ibidem, 124 (1999), 1-14.
29. *Boundary value problems for ordinary linear differential equations in the Colombeau algebra*, Acta Univ. Palacki, Olomouc, Fac. rer. nat., Math. 38 (1999), 95-112.
30. *Two points boundary value problems for linear third order differential equations in the Colombeau algebra*, ibidem, 39 (2000), 107-121.
31. *On two points boundary value problems for ordinary nonlinear differential equations of the fourth order in the Colombeau algebra*, ibidem, 41 (2002), 89-103.
32. *On a two points boundary value problem for linear differential equations of the fourth order in the Colombeau algebra*, Annales Math. Silesianae, 15 (2001), 45-66.
33. *Existence of positive solutions of some integral equations*, ibidem, 18 (2004), 21-38.
34. *Remarks on existence of positive solutions of some integral equations*, Acta Univ. Palacki, Olomouc. Fac. rer. nat., Math. 44 (2005), 71-82.
35. *On the existence of one-signed periodic solutions of some differential equations of second order*, ibidem, 45 (2006), 119-134.
36. *Z żałobnej karty, Tadeusz Dłotko, 1930-2005*, Roczniki Polskiego Towarzystwa Matematycznego, XLIII (2007), 163-171.
