

Trieste Next - Festival of Scientific Research

12th Edition - *"A New World. Science, culture and Innovation for a Sustainable Future"*

International Academy Fellowships

Trieste (Northeastern Italy) - 22-24 September 2023

Dear students,

We are pleased to inform you that applications are now open for the **Trieste Next International Academy fellowships**, a 3-day intensive program that will take place in Trieste on **September 22-24, 2023**, on the occasion of the 2023 Edition of the **Festival of Scientific Research**, promoted by the Municipality of Trieste, the University of Trieste and ItalyPost.

The Academy Program is specifically designed for **BA, MA and PhD students** and offers the possibility to attend the 12th Edition of Trieste Next, thus granting access to:

- **over 60 talks, conferences, workshops** with renowned scientists, researchers and professionals
- 3 special sessions on **artificial intelligence/robotics, medical sciences and biotechnologies**
- guided tours and visits to **renowned science research centres** based in the Friuli Venezia Giulia Region
- **full board accommodation** with bus transfers throughout the duration of the event

The Trieste Next International Academy is open to international English-speaking students and will take place from September 22 (Friday) to September 24 (Sunday). All activities will be held in English.

Italian-speaking students may apply for the Trieste Next Academy, a different program which will be taking place on September 22-24: [click here](#) to discover the set of activities and apply.

Final deadline to submit your application: 30 July 2023

Fellowships for the Trieste Next International Academy

We are currently working on the calendar of events for the 2023 Edition of Trieste Next. The official program will be available online on this website.

THE 12th EDITION: "A NEW WORLD. SCIENCE, CULTURE AND INNOVATION FOR A SUSTAINABLE FUTURE". Since its first edition in 2012, Trieste Next has aimed at addressing key issues of the scientific and cultural debate: from food resources to water management, from energy to sustainability. The 2023 Edition will offer the chance to outline the scientific agenda for the coming years and propose far-reaching reflections on the new frontiers of research and innovation with a focus on sustainability. Trieste Next will thus be an opportunity to promote a fruitful dialogue between STEM disciplines, humanities and social sciences, with a calendar of over 100 events and the participation of over 300 speakers.

THEMATIC SESSIONS. Selected students for the Trieste Next International Academy will have unlimited access to three special sessions on **robotics/artificial intelligence, medical sciences and biotechnologies**. Each session will kick off with a guided visit to a research centre of international renown and will be followed by a program of 5-6 seminars over the course of 3 days.

PAST INTERNATIONAL SPEAKERS. **Edvard Moser**, Nobel Laureate in Physiology or Medicine; **Aaron Ciechanover**, Nobel Laureate for Chemistry; **Helga Nowotny**, professor emerita of Science and Technology Studies Swiss Federal Institute of Technology, former chairwoman European Research Council; **Tahar Ben Jelloun**, writer and essayist; **Chris Smith**, clinical lecturer in Virology University of Cambridge; **Rama Gheerawo**, director Helen Hamlyn Centre for Design, Royal College of Art London; **Peter Wadhams**, professor emeritus of Ocean Physics, head of the Polar Ocean Physics Group University of Cambridge; **Uday Kishore**, senior lecturer in Immunobiology and Medical Microbiology Brunel University London; **Jan Olof Lundqvist**, senior researcher SIWI-Stockholm International Water Institute; **Viktor Mayer-Schönberger**, professor of Internet Governance and Regulation Oxford Internet Institute; **Roger Beachy**, professor emeritus in Biology Washington University, former Executive director World Food Center University of California; **Cameron Neylon**, professor of Research Communication Centre for Culture and Technology Curtin University; **Julian Nida-Rümelin**, philosopher and professor of Philosophy and Political theory Ludwig-Maximilians-Universität, former Minister of Culture Federal Republic of Germany; **Segenet Kelemu**, director general International Centre of Insect Physiology and Ecology; **Jos de Blok**, founder and CEO Buurtzorg; **Steve Chan**, senior fellow Harvard Kennedy School's Center for Public Leadership; **Kathleen Richardson**, professor of Ethics and Culture of Robots and AI De Montfort University; **Miguel Benasayag**, philosopher and psychoanalyst; **Thierry Pedrazzini**, director of Experimental Cardiology Unit University Hospital in Lausanne; **Dominick Salvatore**, distinguished professor of Economics Fordham University.

OPEN-AIR LABS IN THE "CITY OF KNOWLEDGE". As in previous editions, for the entire duration of the Festival Piazza Unità d'Italia (the main square in Trieste) will host the "City of Knowledge" Science Village. Visitors will thus be able to join over 150 activities and open-air labs curated by the whole network of science centres based in Trieste.

Benefits for selected students

Since 2012, more than 10,000 BA, MA and PhD students have attended our Academy Program. Through our initiative, we offer the unique opportunity to meet and discuss with internationally-renowned scientists and professionals, as well as to join a network of international students sharing similar educational and professional backgrounds.

Our fellowship program grants:

- access to special thematic sessions with selected speakers (robotics/artificial intelligence, biotechnologies, medical sciences) and reserved seats to all events
- full board accommodation in 3-4 bed rooms for the entire duration of the stay (from Friday 22 to Sunday 24 September); single or double-room accommodation is available at an additional cost.
- bus transfers (if required to reach the hotel/event venue)

Our fellowship program covers 50% of the participation fees. Upon selection of the application, in order to confirm participation to the Academy Program, selected students are required to pay a participation fee of 240 Euro.

The Academy Program does not cover travel expenses to/from the city of residence.

How to apply

Prospective students may apply to our fellowship program by [clicking here](#). **Deadline to apply: 30 July 2023**

Following deadlines: 27 August 2023.

In order to successfully complete the Academy Program and obtain the final certificate, selected students are required to attend the program of events and actively contribute to the activities defined by the organizing committee of Trieste Next.

Applications will be selected on a weekly basis following criteria such as resume, course of study/research project, motivation letter.

Our team will provide selected students with all information regarding calendar of activities, accommodation, meals, as well as details to pay participation fees.

Covid-19 Pandemic

The organizing committee of Trieste Next informs that:

- the Festival will be held in physical presence of both speakers and audience, following the regulations provided by local and national authorities
- should the event be cancelled by the authorities due to force majeure causes, full refund of the participation fee is guaranteed. Please refer to the "[Terms and conditions](#)" [page](#) for further information.
