★ Starting date of participation in the project

2026-07-06

★ Status of the person on the labour market at the time of joining the project

- ☐ A professionally inactive person
- ☐ An employed person

a professionally inactive person - a person who does not currently create labour resources (i.e. is neither employed nor unemployed). The following people are considered professionally inactive:

1. full-time students, unless they are already employed (also part-time), then they should be listed as employed;
2. children and adolescents up to 18 years of age, those receiving education, unless they meet the conditions under which they can be classified as unemployed or employed;
3. doctoral students who are not employed at a university, other institution or enterprise. If a doctoral student performs professional duties for which they receive remuneration or run a business, they should be treated as an employed person. If a doctoral student is registered as unemployed, they should be included in the unemployment rate;

an employed person – person:

1. aged 15 to 89 who: performs work for which they receive remuneration, from which they derive profits or family benefits;
2. being employed or having their own business, but temporarily not working (due to e.g. an illness, a leave, labour dispute or education or training) or
3. producing agricultural goods, the main part of which is intended for sale or barter.

The following are also considered employed people:

1. self-employed persons, i.e. running a business or activity referred to in Art. 5 of the Act of March 6, 2018 - Law on Entrepreneurs (Journal of Laws of 2023, item 221, as amended), an agricultural farm or professional practice, provided that one of the following conditions is met:
 1. a person works in their business, professional practice or farm to obtain an income, even if the business does not make a profit;
 2. a person devotes time to running a business or activity referred to in Art. 5 of the Act of March 6, 2018 - Law on Entrepreneurs, Professional Practice or Agricultural Farming, even if no sales or services have been made and nothing has been produced (for example: a farmer performing work to maintain their farm; an architect spending time waiting for clients in their office; a fisherman repairing their boat or fishing nets in order to continue working; people attending conferences, conventions or seminars);
 3. a person is establishing a business, farm or professional practice; it includes purchasing or installing equipment and ordering goods in preparation for launching the business. A family member who helps as unpaid is considered to be employed if the work they do contributes directly to a business, farm or professional practice owned or operated by a related member of the same household;
2. a family member assisting a self-employed person free of charge and is considered a "self-employed person";
3. people on maternity/parental leave referred to in the Act of June 26, 1974 - Labour Code (Journal of Laws of 2023, item 1465), unless they are already registered as unemployed (then the status of unemployed takes precedence);
4. students who are employed or run a business;
5. people directed to subsidized employment
