

# Open Access

Why is it worth publishing in open access?

## Scientist

quicker and wider dissemination of scientific research results,

free access to many latest scientific publications,

opportunity to establish cooperation with scientists and entrepreneurs from all over the world,

higher number of citations.

## University

increased visibility of scientific publications prepared by employees,

possibility of quicker publication of breakthrough research results,

evaluation benefits,

educational benefits resulting from the academics' access to the latest knowledge.

## Everyone of us

unlimited access to the state-of-the-art knowledge,

development of economy based on knowledge and innovations,

improvement of education quality and promotion of the concept of lifelong learning,

access to knowledge reducing inequalities in Poland and between countries.
