

# Biotechnology

# BIOTECHNOLOGY at UŚ?

Develop your passions with us!

# What do we offer?

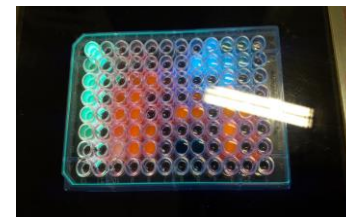

continuous development of your scientific knowledge, skills and interests

variety of optional modules to meet your requirements

introduction to modern information technologies

the opportunity to work in the research teams of experienced scientists

modern, fully equipped laboratories

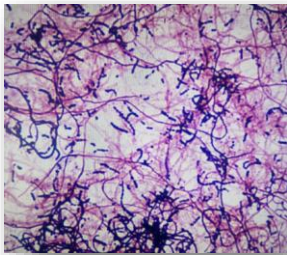

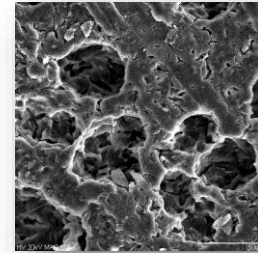

## Biotechnology – Student Academic Profile

### Seeker of

- organisms with unique features
- genes
- new solutions

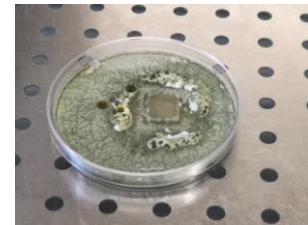

- unknown interactions
- interesting applications
- undescribed metabolic pathways

### Explorer of

### Designer of

- scientific experiments
- new metabolic processes and pathways

# Admission criteria

Persons who have a diploma of graduation with the title of bachelor, engineer, master or equivalent, obtained in the field of biology, biotechnology, environmental protection or related disciplines.

## **Stage I:**

Submission to the Faculty Recruitment Committee (WKR) of a document certifying knowledge of B2 level in accordance with the Common European Framework of Reference for Languages.

In the absence of documents certifying knowledge of English at a level of at least B2 or higher, the applicant's language competencies will be tested at an interview.

## **Stage II:**

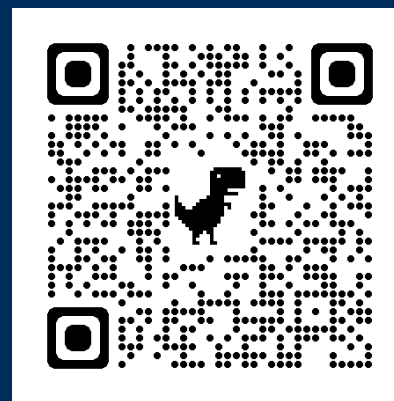

Candidates admitted to stage II will be qualified for studies on the basis of the sum of the grade on the diploma and the average grade from the studies (according to the place on the ranking list).
