

Lecturer Koray Aki

Bursa Uludag University Department of Computer Engineering

Interests

- Programming Languages
- Data analysis
- Data Visualization
- Image processing
- Machine Learning
- Deep Learning
- Convolutional Neural Network

Articles

- A Review on the Approaches and Systems Based on Neuro Fuzzy Synergism in the Soft Computing
- Deep Learning Based And PID Control Based Autonomous Vehicle Systems
- End-to-End Autonomous Car Training

Seminar

- Science Academy - Bilkent University Machine Learning Summer School 2020- Back to Basics in Machine Learning, Bilkent University, Seminar, 29.06.2020 -02.07.2020 (International)
- Artificial Learning on the Bosphorus İsmail Arı Summer School 2018, Speech, Language Processing and Bioinformatics, Boğaziçi University, Seminar, 02.07.2018 -05.07.2018 (International)
- Northwest Artificial Learning Summer School 2019, Artificial Learning in Health Sciences, Robotics and Industry, Koç University, Seminar, 24.06.2018-28.06.2018 (International)

AWARDS

- Find Diabetes Easier Project Challenge Semi-Finalist Award, Diabetes Foundation of Turkey, 2015
- TUBITAK MARK II. Entrepreneurship Camp Participation Certificate, TUBITAK, 2014
